C1 SmartOnboard™

Automated, Compliance-Aligned Access Onboarding

Overview

C1 SmartOnboard automates access onboarding for secure and regulated environments. It validates prerequisites, routes approvals, enforces documentation, and provides end-to-end audit trails—reducing time-to-access and eliminating manual onboarding steps.

Key Value Points

- 50–80% faster onboarding
- Enforces compliance prerequisites
- Eliminates email-based routing
- Full audit traceability
- Standardizes onboarding across environments

Core Capabilities

- Self-service access request portal
- Automated adjudication & approvals
- Document validation (training, NDA, background, eligibility)
- Multi-department workflow support
- Real-time dashboards & tracking
- Complete audit logs
- Role/group assignment automation

Primary Use Cases

- FedRAMP adjudicated access onboarding
- Vendor/contractor onboarding
- High-trust corporate system access
- Cross-department approval orchestration

Impact Summary

- Weeks → days onboarding reduction
- Major reduction in manual labor
- Fewer audit findings
- Consistent governance across users

Positioning

SmartOnboard delivers **fast**, **compliant**, **fully traceable** onboarding for any secure environment.
