# C1 SmartAI for DACM

**AI-Powered Controls & Attestations**

## AI-Generated Controls

Automatically draft control language from citations, eliminating manual authoring effort.

## AI Attestation Scoring

Instant scoring with automated gap detection and risk flagging for faster reviews.

## AI Evidence Quality Checks

Automated validation ensures documentation meets compliance standards across frameworks.

## AI Cross-Framework Support

Consistent interpretation across FedRAMP, CMMC, NIST, ISO, and other standards.

## Key Outcomes

- **Major reduction** in manual review workload
- **Improved quality** of controls and attestations
- **Faster ATO cycles** and SSP/POA&M preparation
- **Fewer audit findings** through better documentation

## Ideal For

- FedRAMP and CMMC compliance teams
- Cloud service providers and defense contractors
- Federal agencies and third-party assessors
- IRM and internal audit teams

**Pricing:** Add-on to SmartDACM platform. Pricing based on AI usage volume and framework scope. Contact your ServiceNow representative for custom quote.
