

C1 SmartOps Sentinel

Turnkey IRM, SecOps & ATO Compliance Cloud

SmartOps Sentinel is a fully managed, C1Secure-owned ServiceNow environment delivering IRM, SecOps, SmartDACM, and SmartAI automation as an operational outcome. No platform to deploy, configure, or maintain. C1Secure provides a ready-to-use compliance and security cloud with automated SSPs, POA&Ms, continuous monitoring, evidence automation, and end-to-end risk and SecOps workflows. Ideal for organizations without ServiceNow licenses or platform staff that need instant, enterprise-grade compliance and ATO acceleration.

Turnkey Environment

C1Secure-owned ServiceNow with pre-configured IRM, SecOps, BCM, Vendor Risk, and Risk Management ready on day one.

SmartDACM Complete

Automated SSP, POA&M, inheritance, mapping, and SmartEvidenceEngine for real-time evidence automation.

SmartAI Agents

AI-powered ATO packages, evidence summaries, monitoring, and SmartCitationMapper for guided workflows.

Managed SecOps

24x7 VR/SIR operations, continuous ConMon dashboards aligned to GovRAMP/StateRAMP, and platform operations.

Use Cases

- No platform or licenses available
- FedRAMP/StateRAMP/CMMC programs require automation
- Low SecOps maturity needing managed workflows
- Manual spreadsheets & governance gaps
- Continuous monitoring without dedicated team

Key Outcomes

- Complete compliance cloud ready day one
- **70-80% faster ATO cycles**
- Automated evidence, SSPs, and POA&Ms
- Enhanced SecOps efficiency and risk visibility
- Continuous audit readiness

Ideal For

Organizations without ServiceNow licenses or internal platform staff, CISOs, CIOs, ATO/Compliance leaders in regulated environments (FedRAMP, StateRAMP, CMMC, ISO).

Pricing Model

Pricing depends on boundary size, frameworks, operations scope, SmartAI depth, and required managed hours.
