

# C1 Security Posture Control SmartStart

## Multi-Cloud Security Posture Management on ServiceNow

Rapid deployment of ServiceNow CSPM for multi-cloud security. Continuously monitor cloud configurations across AWS/Azure, detect misconfigurations, and route remediation with SmartAI.

### THE IMPACT

**70%**

Faster Remediation

**60%**

Evidence Collection Savings

**2x**

ATO Acceleration

### ■ Core Capabilities

- Multi-cloud resource discovery and benchmark checks
- Automated remediation workflows with SLA enforcement
- Exception and risk acceptance governance
- Cloud account onboarding and access control
- Posture dashboards and compliance trend tracking

### ■ Primary Use Cases

- Prevent cloud misconfigurations before exploitation
- Automate CIS/NIST benchmark scanning at scale
- Support Cloud ATO and continuous monitoring programs
- Link misconfigurations to policies and controls
- Route fixes to teams with SLA enforcement

#### Multi-Cloud Coverage

Continuous scanning across AWS and Azure with automated misconfig detection and CIS/NIST benchmark alignment out of the box.

#### SmartAI Intelligence

AI-powered remediation guidance, compliance insights, and automated workflows with SLA tracking for DevOps and CloudOps teams.

#### Unified Governance

Integrated with IRM, SecOps, and SmartDACM. Maps misconfigurations to controls, risks, and POA&Ms with CMDB enrichment.

### KEY USE CASES

- Continuous multi-cloud posture monitoring with automated misconfiguration detection
- CIS and NIST benchmark scanning with compliance trend tracking and reporting
- Cloud ATO support with evidence automation and continuous monitoring readiness
- Misconfiguration-to-control mapping with SLA-enforced remediation routing

### Why C1Secure

#### Cloud-Native CSPM

Purpose-built for AWS and Azure with CIS/NIST benchmarks and automated scanning out of the box.

#### IRM/SecOps Integrated

Maps misconfigurations directly to controls, risks, and POA&Ms with CMDB-enriched asset context.

#### SmartAI-Enhanced

AI-powered remediation guidance and compliance insights accelerate resolution and reduce manual effort.

**Continuous cloud security posture management on ServiceNow.**

*Pricing based on cloud account volume, resource count, integrations, and SmartAI tier.*
