

## C1 SmartCore

# The Unified Foundation Behind Every SmartProduct

SmartCore is the standardized, scalable foundation that powers all C1Secure SmartApps. It unifies data structures, forms, workflows, and compliance logic across the SmartSuite.

### THE IMPACT

**40-60%**

Faster Development

**50-70%**

Less Duplication

**100%**

Cross-Product Consistency

### ■ Core Capabilities

- SmartTables: unified data structures for requests, tasks, evidence
- SmartForms: consistent, dynamic UI framework
- Shared workflow modules (approvals, tasks, notifications)
- Embedded compliance logic (timestamps, audit metadata)
- Cross-product interoperability with shared models

### ■ Key Value Points

- Standardized architecture for all SmartProducts
- Faster development with reusable components
- Lower maintenance and technical debt
- Built-in auditability and lifecycle consistency
- Seamless integration across the SmartSuite

#### SmartTables

Unified data structures for requests, tasks, and evidence ensuring consistent behavior across all SmartApps.

#### SmartForms

Dynamic, consistent UI framework that standardizes the user experience across every C1Secure product.

#### Shared Workflows

Reusable modules for approvals, task routing, and notifications with embedded compliance logic built in.

### KEY USE CASES

- Accelerating SmartApp development with reusable components and shared data models
- Ensuring consistent user experience and behavior across all C1Secure products
- Reducing maintenance overhead, technical debt, and upgrade effort across the SmartSuite
- Embedding auditability and compliance logic into every workflow automatically

### Why C1Secure

#### Architectural Backbone

SmartCore is the foundation that makes every SmartApp faster, more consistent, and easier to maintain.

#### Built for ServiceNow

Native ServiceNow architecture means no bolt-on complexity or integration overhead.

#### Future-Proof

New SmartApps inherit SmartCore capabilities automatically, scaling the platform with zero rework.

**The unified backbone behind every C1Secure SmartApp.**

*Faster development, less duplication, consistent quality across the SmartSuite.*

**Ready to accelerate?**
