C1 SmartDACM for Defense
Unified Defense Compliance Automation Suite

SmartDACM for Defense unifies CMMC, FedRAMP, DFARS, NIST 800-171, and NIST 800-53 into a single ServiceNow automation suite with AI-powered readiness insights and SPRS scoring.

THE IMPACT

Faster
CMMC & FedRAMP Readiness

Stronger
SPRS Posture & Scoring

Lower
Overall Compliance Cost

■ Core Capabilities

- Unified control harmonization across defense frameworks
- AI-assisted SSP review with automated SPRS scoring
- Smart POA&M Generator for FedRAMP and CMMC outputs
- Evidence reuse across all defense frameworks
- Real-time dashboards for SPRS, POA&M, and risk posture

■ Key Outcomes

- Faster CMMC and FedRAMP readiness timelines
- Reduced audit preparation effort for DIBCAC and 3PAO
- Stronger SPRS posture with AI-powered evaluation
- Less duplicate evidence work across programs
- Streamlined ATO and ConMon cycles

Framework Harmonization

Unified control mapping across CMMC, FedRAMP, DFARS, NIST 800-171, and NIST 800-53 with shared evidence sets.

AI-Powered SPRS

AI-assisted SSP review and automated SPRS scoring give real-time readiness insights for defense certifications.

Defense-Ready Outputs

Smart POA&M Generator produces FedRAMP and CMMC-compliant outputs with continuous monitoring integration.

KEY USE CASES

→ Unified CMMC and FedRAMP compliance with a single evidence set across defense frameworks
→ Automated SPRS scoring with AI evaluation for continuous readiness tracking
→ FedRAMP ConMon and ATO automation with Smart POA&M Generator integration
→ Defense audit preparation for DIBCAC and 3PAO with centralized evidence repository

Why C1Secure

Defense-Focused

Purpose-built for CMMC, FedRAMP, DFARS, and NIST with unified control harmonization.

AI-Driven Readiness

Automated SPRS scoring and SSP review with AI-powered insights for faster certification.

Evidence Reuse

Upload once, map across all defense frameworks eliminating redundant compliance work.

Unified defense compliance automation with AI-powered SPRS scoring.
Modular suite; pricing varies by systems, frameworks, and selected add-ons.
