

C1 SmartStart for AI Control Tower

Rapid AI Governance Deployment on ServiceNow

SmartStart for AICT delivers rapid deployment of ServiceNow AI Control Tower - centralizing AI assets, lifecycle management, compliance, and risk with real-time dashboards.

THE IMPACT

60-80%

Governance Effort Reduction

50-70%

Faster AI Onboarding

Unified

AI & IT Asset Oversight

■ Core Capabilities

- Full AI asset inventory (models, agents, datasets, prompts)
- Standardized lifecycle from onboarding to retirement
- Risk controls, policy templates, and audit trails
- Real-time performance, value, ROI, and risk dashboards
- Cross-module IRM, CMDB, and SecOps integration

■ Primary Use Cases

- Central AI inventory and governance across departments
- Enforce Responsible AI and regulatory compliance
- Manage AI lifecycle, drift, triggers, and retirement
- Track AI value and ROI for investment prioritization
- Integrate AI governance with IRM, compliance, and security

AI Asset Inventory

Centralize models, agents, datasets, prompts, and workflows with complete governance oversight.

Lifecycle Management

Standardized workflows from onboarding through deployment, monitoring, and retirement of AI assets.

Built-in Compliance

Risk controls, policy templates, and audit trails aligned to regulatory requirements for responsible AI adoption.

KEY USE CASES

- Centralizing AI asset inventory with full governance oversight across departments
- Enforcing Responsible AI policies with built-in compliance controls and audit trails
- Managing AI lifecycle from onboarding through monitoring, drift detection, and retirement
- Tracking AI value and ROI with real-time dashboards for investment prioritization

Why C1Secure

ServiceNow-Native

Built on AI Control Tower for seamless integration with your existing ServiceNow ecosystem.

Governance-First AI

Risk controls and policy templates ensure compliant, auditable AI adoption from day one.

Rapid Deployment

SmartStart methodology delivers a governed AI program faster than traditional implementations.

Governed, scalable AI program on ServiceNow AI Control Tower.

Pricing: \$125K-\$175K *subject to scoping
