

## C1 SmartStart for Veza Identity Governance

# Enterprise Identity Governance, Deployed and Operational

*in 12 to 16 Weeks*

SmartStart for Veza provides a structured path to go-live for Veza Identity Governance, now part of ServiceNow. Organizations go from signed agreement to production-ready in 12 to 16 weeks.

### THE IMPACT

## 12–16 Weeks

Go-Live Timeline

## 200+

Pre-Built Policies

## 12 Months

Managed Service Option

#### Core Capabilities

- Connected data sources mapped to Veza's identity graph
- 200+ pre-built policies activated and tuned to your environment
- Access review campaigns configured with evidence capture
- Identity risk findings linked to ServiceNow IRM workflows

#### Primary Use Cases

- Organizations with Veza purchased but not yet deployed
- IAM and access governance teams building programs
- CISOs and compliance leaders closing access visibility gaps
- ServiceNow IRM customers adding identity governance

#### Rapid Go-Live

Four-phase delivery: Discovery, Build, Policy, Enablement. Defined outputs at every phase. Production-ready in 12 to 16 weeks.

#### Policy Activation

Veza's 200+ pre-built policies configured and tuned to your environment and compliance requirements from day one.

#### IRM Integration

For ServiceNow IRM customers, access risk findings link directly to governance workflows and risk registers.

### KEY USE CASES

- Activating a purchased Veza investment with a structured path to production in 12 to 16 weeks
- Eliminating access blind spots by connecting all data sources to Veza's identity graph
- Operationalizing access reviews with structured campaigns and audit-ready documentation
- Connecting identity risk to ServiceNow IRM for unified governance and compliance traceability

## Why C1Secure

#### Practitioner-Led

Deep identity governance expertise paired with ServiceNow IRM fluency and real enterprise delivery experience.

#### Built for ServiceNow

Veza access findings flow into your existing IRM workflows, not a separate tool.

#### Deployment to Operations

SmartStart delivers go-live. Our 12-month managed service keeps the program running after implementation closes.

**Your go-to partner for Veza deployment at enterprise scale.**

*Fixed-scope implementation with optional 12-month managed service.*

**Ready to deploy Veza?**
